

## Sonia A. Kim, PhD

Epidemiologist, Division of Nutrition,  
Physical Activity, and Obesity,  
National Center for Chronic Disease Prevention  
and Health Promotion

**Dr. Kim** is an Epidemiologist in the Division of Nutrition, Physical Activity, and Obesity. Her research interests include the effects of the food environment on individual dietary behavior, measurement of the community and consumer food environment, and policies and programs intended to improve access to healthy foods. Dr. Kim serves as co-lead of the CDC-funded Nutrition and Obesity Policy Research and Evaluation Network (NOPREN). Recent projects include leading the development of CDC's State Indicator Report on Fruits and Vegetables, 2013 and co-authoring a paper entitled, "The Food and Water System: Impacts on Obesity," which presented the themes of the Food and Water System track of CDC's Weight of the Nation 2012 Conference.

Dr. Kim received her Bachelor of Science in Biochemistry from the University of North Carolina at Chapel Hill in 1999 and her PhD in Nutrition Health Sciences from Emory University in 2005. She worked for two years at UCLA on worksite wellness programs in the Los Angeles Unified School District. Dr. Kim began her career as an Epidemiologist at CDC in 2008.
